

LEGISLATIVE UPDATE | March 17, 2020

Welcome to the Care Aware Legislative Update. This narrative update, along with our Bill Tracker, will be posted on the [Child Care Aware of Minnesota website](#) each Tuesday (reflecting activity through the previous Friday).

Each week, we will provide a brief overview of bills that have been introduced, action that has been taken at the committee level or on the floor, and any other pertinent news related to early care and education and school-age care issues.

If you have additions to recommend to the bill tracker, please [contact Ann McCully](#).

OVERVIEW

On March 15, Minnesota legislative leaders announced that they're planning to effectively recess the legislative session for up to a month, coming in only on an as-needed basis to pass legislation related to the coronavirus situation.

Leaders from both parties released a statement on their plans, saying that "over the next few weeks, the Minnesota Legislature will continue to work, but by alternative means." Lawmakers will follow state health department guidelines to limit large gatherings, increase cleaning, and move to off-site working when possible.

"The Legislative bodies and committees will meet in floor and committee session on an on-call basis from March 16 through April 14," the legislative leaders said in a statement. "This means there will not be standing floor and committee meetings, but we will meet on the House and Senate floors and in committees with advance notice to members and to the public. All meetings will be held in spaces that allow six feet of distance between individuals."

Another important development was the release of the **Governor's Supplemental Budget Bill** on Thursday, March 12. Given the current COVID-19 crisis and a desire to reserve funds to address impacts, this budget was very limited. Here are the elements in the supplemental budget that relate to early childhood education and school age care:

Full Services Community Schools: \$2 million in 2020-21; **\$4 million** in 2021-22

The Governor recommends reestablishing the Full-Service Community Schools grant program. This program establishes planning and implementation grants to racially isolated or low-performing schools to provide wraparound services chosen by the school community. Services may include onsite health and dental clinics, mental health services, legal services, family resource centers, college access information, out-of-school activities, or other family support services.

Head Start Tribal allocation: \$377,000 in 2020-21; **\$754,000** in 2021-22

The Governor recommends restoring state tribal Head Start program funding to FY 2018 levels through a hold harmless provision. Since FY 2018, all but two tribal programs had a reduction of federal funding and thus state allocations. This

proposal would create more reliable funding streams for these programs. Additionally, the Governor recommends a policy change that allows Head Start funds for all local agencies to be used for infrastructure as well as operations. Head Start is one of few programs that offer comprehensive services and serves children and families who are at or below 100% of the poverty line.

CCAP Rates: \$137,000 in 2020-21; \$84,215 in 2021-22

The Governor recommends increasing Child Care Assistance Program (CCAP) rates to help families afford the cost of childcare. CCAP serves approximately 15,000 families and 30,000 children each month. This recommendation would increase maximum rates to the 30th percentile every three years with each new market survey. At least 80 percent of families and their providers would see an increase in their CCAP rates as a result of this recommendation. Additionally, this recommendation updates CCAP requirements for unlicensed child care providers. If this recommendation is not funded, Minnesota will continue to be out of compliance with Child Care Development Block Grant requirements and could face a penalty of up to 5 percent of the federal funding.

Child Care grants: \$2 million in 2020-21; No funding in 2021-22

The Governor recommends funding for the Childcare Economic Development Grant program. The program awards funding to communities to increase the supply of child care providers and support regional economic development. It is estimated that with this additional investment, over \$10 million in local matching funds will be leveraged with 4,000-6,000 more children throughout the state receiving child care.

Strengthen Child Mortality Review Panels: \$659,000 in 2020-21; \$1.3 million in 2021-22

The Governor recommends re-establishing the Fetal and Infant Mortality Review Committee to review infant and child mortality cases. The Department of Health will create panels that will review fetal, infant, and child deaths that are classified as accidental, natural, or due to sudden unexpected infant death and recommend health and safety strategies to prevent future deaths and injury.

COMMITTEE ACTIVITY

The House Early Childhood Division met twice last week to take up the following bills:

- **HF3504** (Morrison) Preschool and kindergarten individual-use screen use limited, and money appropriated. ***This bill was amended and laid over.***
- **HF3693** (Mann) Children with disabilities; access to child care expansion grants authorized. ***This bill was amended and re-referred to Health and Human Services Finance Committee.***
- **HF3672** (Noor) Child care assistance funding priorities for eligible families modified, and fund allocation adjusted. ***This bill was amended and re-referred to Health and Human Services Finance Committee.***
- **HF3737** (Pryor) Human services hearing procedures, crimes, background studies, and licensure requirements provisions modified. ***This bill was referred to the General Register.***
- **HF3954** (Koegel) Head Start funding allocation modified, and money appropriated.

House Ways and Means Committee acted on the following bill:

- **HF 1** (Kotzya-Witthuhn) Additional funding and opportunities for children ages birth to three, programs and funding for prenatal care services, home visiting, early childhood education, and child care assistance. ***This bill was re-referred without recommendation to House Jobs & Economic Development Division.***
